**Zoom Webinar**

# Sino Nasal Mucormycosis in Covid Era

Rhino Cerebral Mucormycosis is a deadly disease affecting nose, para nasal sinuses, orbit and brain. It presents in acute or chronic forms. It is on the rise because of diabetes but now with Covid infection the incidence of Mucormycosis is increasing many folds as the patients are on immune suppressants like high dose of steroids. This online CME is organized to enlighten the specialist from various fields like ENT, Ophthal and medicine about early diagnosis and management of Mucormycosis in this Covid era.
